¹Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

Preliminary Or

Approved .

TYPE OF DETERMINATION:

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs $2 \cdot 3$ – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): The site is currently contains 2 isolated palustrine wetlands. A site visit was conducted and no outlet to other waters of the US were seen. The site is not capable of supporting navigation, and the current land use on the site provides no apparent interstate commerce connection for this wetland. There is a jurisdictional linear palustrine wetland on the site.
